HIGHLIGHTS

GOOD BUSINESS TREND THANKS TO UNIQUE SET-UP

- › Rapid response to changes in the market and stable operating performance ensured a successful financial year for AMAG Group
- › Revenue of EUR 1,459.2 million following a record previous year (EUR 1,726.7 million)
- › EBITDA at EUR 188.4 million is the second-highest level in the company's history (2022: EUR 247.1 million)
- › Solid net income after taxes of EUR 66.4 million (2022: EUR 109.3 million)
- › Significant increase in cash flow from operating activities of 110 % to EUR 180.9 million (2022: EUR 86.1 million)
- › Proposed dividend of EUR 1.50 per share
- › Outlook 2024: Earnings forecast in the form of an EBITDA range premature due to uncertain market and economic development

SUCCESS THROUGH COMPETENCE

AMAG SET-UP OFFERS OPPORTUNITIES ...

6

... THAT ARE LEVERAGED BY STRONG EXPERTISE

- › **Unique process chain** from primary aluminium production through to casting, rolling and component production
- › **Interest held in the smelter in Canada** for over 30 years strategically secures supplies of input materials and enhances AMAG Group's profitability
- › **Integrated site in Ranshofen** for the production of recycled cast alloys and rolled products
- › **Aircraft component manufacturing in Germany** complements value chain and optimises closed loop
- › **Experienced and expert team** forms the **essential basis** for sustainable success

RECYCLING EXPERTISE IS AMAG'S "USP" ...

7

... AND MORE IMPORTANT THAN EVER IN CURRENT TIMES

- › AMAG is a leader in aluminium recycling and one of the largest European aluminium recyclers at a single location
- › Over 40 years of experience in returning aluminium scrap and production waste to the production process
- › Combination of casting and wrought alloy foundry (=USP) offers state-of-the-art, flexible plant for processing all types of aluminium scrap

Average scrap utilisation rate in %*

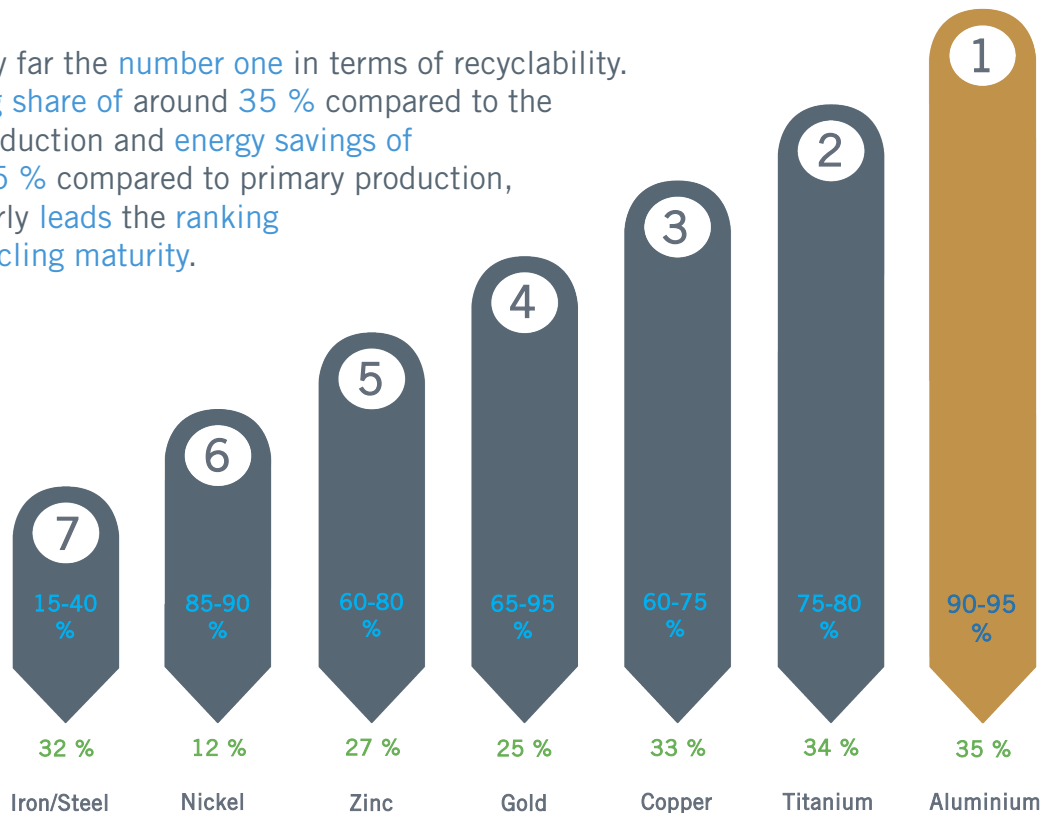

*Scrap share includes pre- and post-consumer scrap, closed loop scrap and fabricator scrap

RECYCLING – METALS IN COMPARISON

IN THIS CASE, ALUMINIUM IS GOLD

Aluminium is by far the **number one** in terms of recyclability. With a **recycling share** of around **35 %** compared to the total annual production and **energy savings** of around **90 to 95 %** compared to primary production, **aluminium** clearly **leads the ranking** in terms of **recycling maturity**.

LEGEND

Recycling maturity*

Energy savings recycling vs. primary production (in %)

Volume recycled annually (in %)

* The ranking is based on energy savings in recycling compared to primary production and the proportion of the annual volume recycled compared to the total annual production.

CARBON-OPTIMISED ON TRACK

AMAG SUPPORTS CUSTOMERS IN THE PRODUCTION OF LOW-CO₂ END PRODUCTS

- › With its **AL₄ever** product brand, **AMAG** is a global **pioneer** in the manufacture of **carbon-optimised aluminium** products
- › **AMAG** semi-finished products form **part of the solution** in the manufacture of **low-emission end products**
- › **Unique product solutions** based on **intensive research work**. Two impressive examples:
 - › **AMAG CrossAlloys**: **Combining** the **advantages of different alloy families** to create new alloys with unique properties
 - › **Significant increase in the recycling content** of various aluminium alloys, particularly **in the automotive sector**
→ Development success as part of the **SoRA project** (Science of Recycling Alloys)

AMAG **AL₄ever®** products with **guaranteed small carbon footprint** and **transparent traceability** in accordance with ISO 14067

FURTHER INCREASE IN SPECIALITY SHARE

10

“NEW PRODUCTS FIREWORKS” CONSISTENTLY PROGRESSED SINCE 2019

- › State-of-the-art plant enables AMAG to push ahead with its speciality strategy
- › Increase in the share of speciality products from 43 % in 2019 to 57 % in 2023
- › Continuous growth in research expenditure to EUR 22.1 million to optimally harness innovation potential
- › A total of >100 new products successfully placed on the market and sold since the launch of the “new products fireworks” in 2019

A proven and dynamic AMAG research team in front of the newly constructed "Center for Material Innovation"

NEW SURFACE TREATMENT CENTRE

11

SURFACE FINISHING IN A NEW DIMENSION

- › Largest capital expenditure project of recent years realised on time and on budget
- › Plant enables flexible surface finishing of aluminium coils up to 5 mm thickness and offers unique advantages for customers in various industries
- › Further details to follow in AluReport 1/2024

MULTIPLE AWARDS AGAIN IN 2023

OUTSTANDING PERFORMANCE IN VARIOUS AREAS

- › Various prizes, certifications and ratings confirm successful activities across numerous areas of the company. Selected awards:
 - › Accredited Supplier Award from Airbus: Highest award for consistently good performance in supply chain and quality
 - › Boeing Supply Chain Performance Achievement: Already awarded in 2022 for very good industrial performance
 - › Sustainalytics rating: 1st place in the “Aluminium” group (39 companies in total)
 - › EcoVadis: Highest rating in platinum for excellent sustainability performance (top 1 %)

MARKET AND SHIPMENTS

PREMIUM PRODUCTS FOR PREMIUM CUSTOMERS

14

SPECIALITY APPROACH STRENGTHENED LONG-TERM

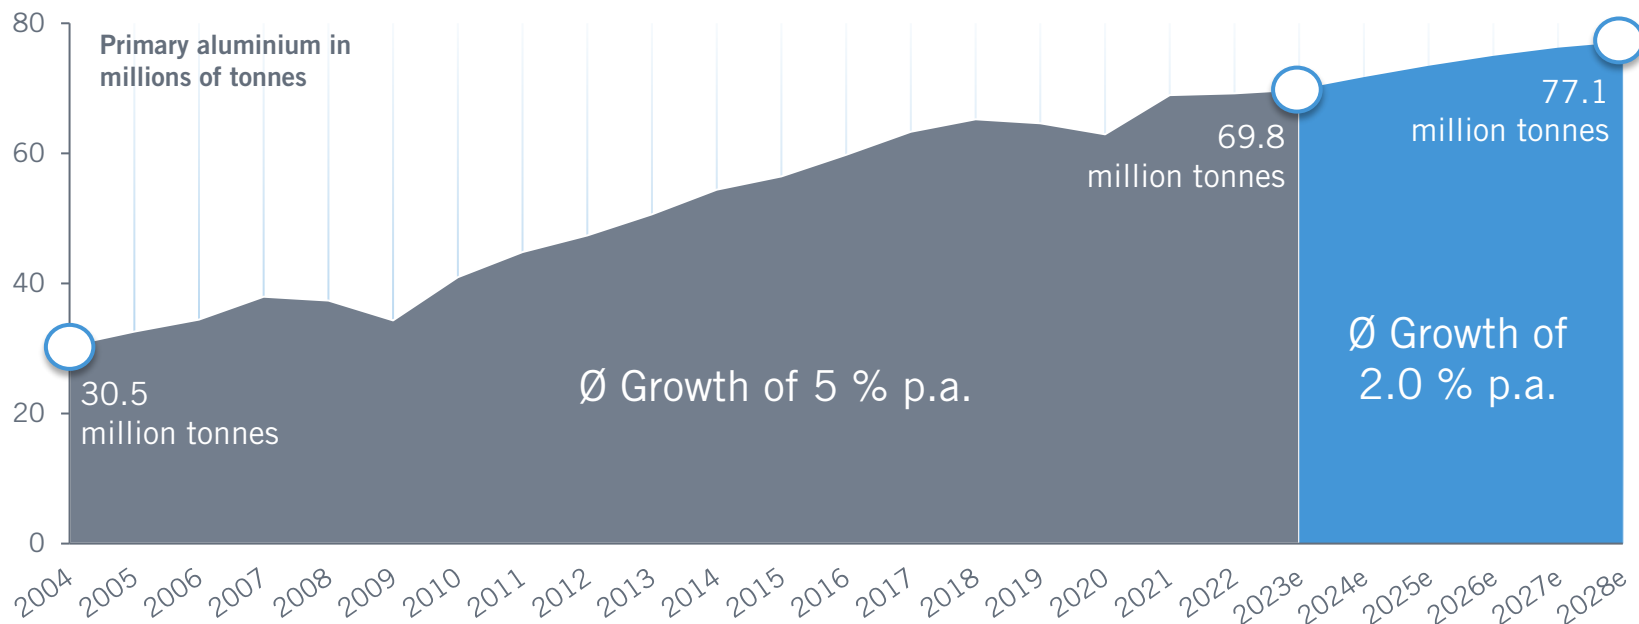

- › AMAG builds on diverse and comprehensive product and customer structures, which are often based on long-standing partnerships
- › Transport sector of great importance for the implementation of AMAG's speciality strategy due to high product and quality requirements
- › Two major multi-year contracts signed in 2023, further strengthening the company's position as a premium supplier:
 - › Aircraft: Long-term contract with Airbus SE secures delivery volumes with higher market shares
 - › Automotive: Largest contract with AUDI AG secures supplies of ASI*-certified AMAG aluminium coils

*Aluminium Stewardship Initiative

DEMAND FOR PRIMARY ALUMINIUM

SOLID GROWTH OF 2 % P.A. EXPECTED UP UNTIL 2028

- › Slight growth of +0.9 % to 69.8 million tonnes in 2023
- › Growth of +2.7 % to 71.7 million tonnes in 2024 according to CRU forecast

DEMAND FOR ALUMINIUM ROLLED PRODUCTS (1/2)

16

SIGNIFICANT GROWTH OF MORE THAN 4 % P.A. EXPECTED UP UNTIL 2028

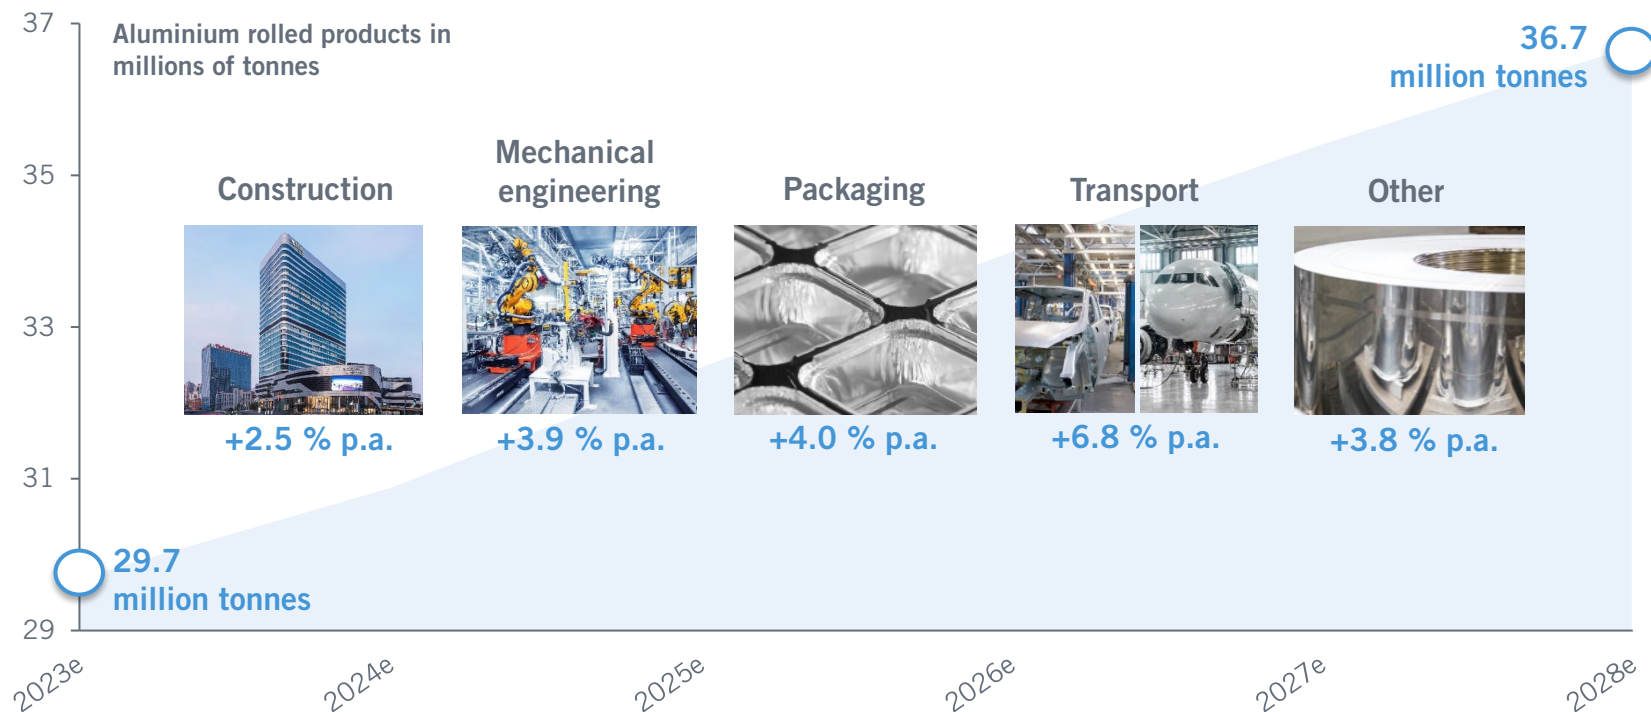

- › Demand reduction of -3.8 % to 29.7 million tonnes in 2023
- › Growth of +4.0 % to 30.9 million tonnes in 2024 according to CRU forecast

DEMAND FOR ALUMINIUM ROLLED PRODUCTS (2/2)

BROAD PORTFOLIO CUSHIONS MARKET-RELATED REDUCTIONS IN DEMAND

Shipments in tonnes

Change in shipment volume compared to 2022 in tonnes

Metal: +570 tonnes → Continued stable production levels at the Alouette smelter in Canada once again enabled slight year-on-year volume growth

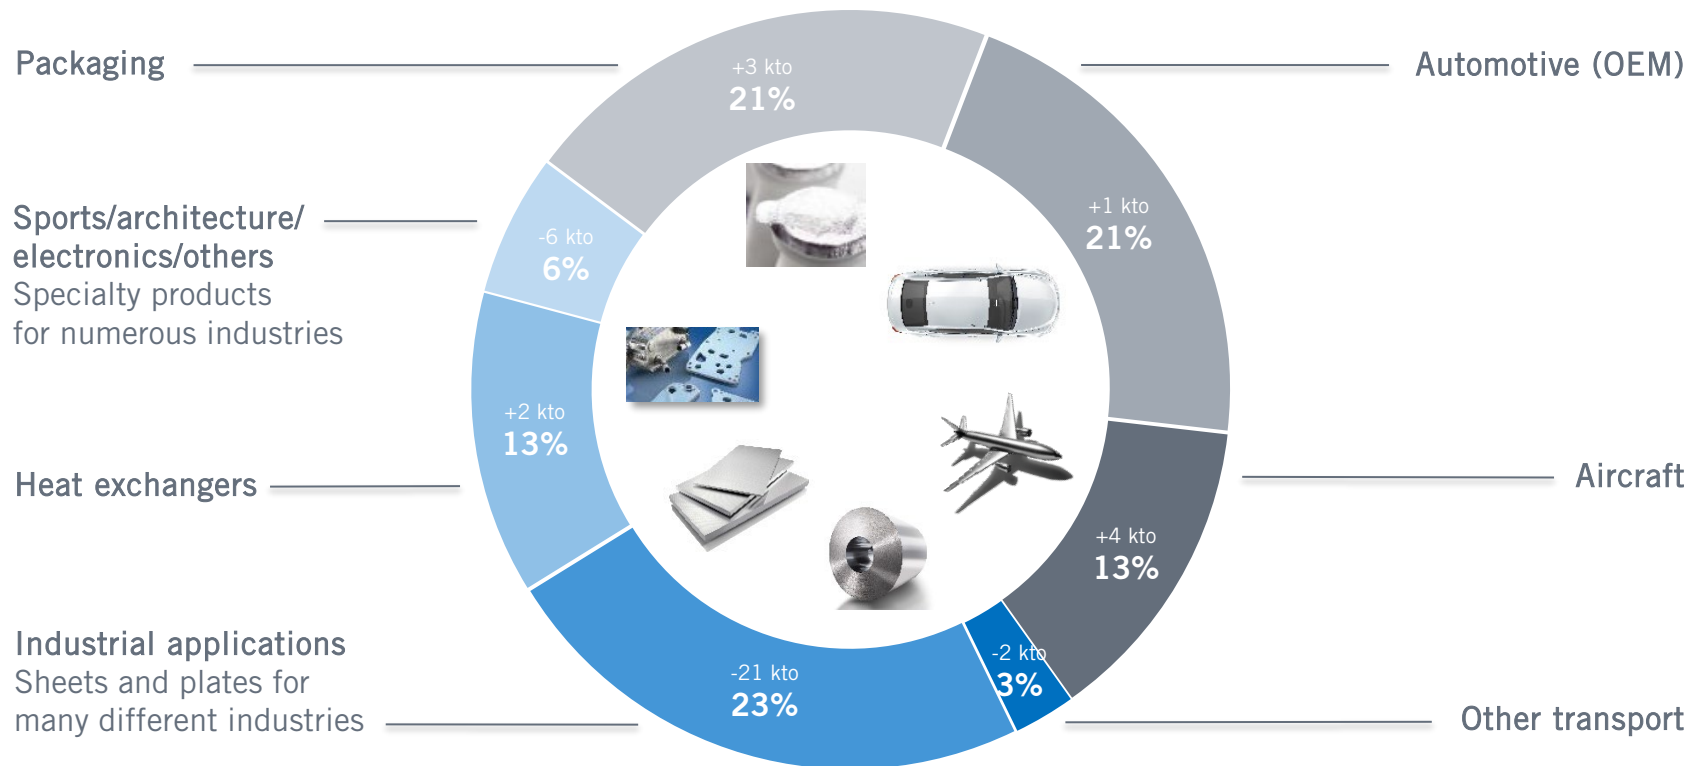

Casting: +1,800 tonnes → Stable environment in the automotive industry successfully leveraged thanks to high productivity in recycled cast alloys production

Rolling: -18,600 tonnes → Positive demand trend in the transport sector partially cushions market-related reductions in industrial applications, sports and architecture

Employees (FTEs)	1,696	1,689	0.4 %	1,702	1,706	-0.3 %

EBITDA trend in EUR million

- › Significant reduction in demand for industrial applications, sports and architectural products offset by marked growth in the transport sector
- › Positive evaluation effects of around EUR 20 million in FY 2023, primarily due to lower energy prices

DIVIDEND AND OUTLOOK FOR 2024

PROPOSED DIVIDEND: EUR 1.50 PER SHARE

DIVIDEND YIELD OF 5.6 %

Dividend in EUR per share for the respective financial year

Dividend yield (based on year-end closing price) in %

- › Proposed dividend of EUR 1.50 per share
- › To be voted on at the AGM on April 11, 2024
- › Dividend to be paid on April 18, 2024

*based on the proposal to the Annual General Meeting (AGM)

OUTLOOK FOR 2024

- › Positive demand trend for aluminium products according to CRU (+4.0 % for rolled products) while at the same time cautious economic forecasts especially for the Eurozone (+0.9 %)*
- › AMAG continues to focus on stability in its business model, flexibility in processing and diversity in its portfolio and will respond rapidly to changes in the market environment
 - › Metal Division: Continued high production expected. Earnings largely dependent on aluminium price and raw material cost trends
 - › Casting Division: Currently stable demand for recycled cast alloys continues to be served with high productivity
 - › Rolling Division: From today's perspective, a positive trend in the transport sector (especially aircraft) is expected. Recovery in demand for industrial applications, sports and architectural products uncertain
- › Outlook 2024: Earnings forecast in the form of an EBITDA range premature due to uncertain market and economic development
